Abhilash Bhattacharjee

Staff Product Designer, Jumpcloud | bhattacharjeev@gmail.com | 9739693891 | **Portfolio** | **LinkedIn** | **Website**

Innovative and results-driven Staff Product Designer with over 12 years of experience crafting seamless and scalable B2B SaaS experiences. Passionate about AI-driven UX, design systems, and solving complex user challenges. Proven track record of enhancing user engagement, streamlining workflows, and driving business impact at companies like Atlassian, JumpCloud, and Citrix.

Work Experience

Confluent – Bengaluru — June 2025-Present

Senior Product Designer

- Designed savepoint workflows closing competitive gaps with Ververica/Cloudera, reducing disaster recovery 83% (30min→5min) for 125+ operators.
- Led Artifact Management design eliminating Docker builds, reducing deployment 87% (2h→15min) for 50+ enterprises.
- Designed FlinkSQL UI achieving ksqlDB parity, reducing onboarding 86% (2 weeks→1 day) for 1,000+ developers.
- Architected Multi-K8s Cluster Support reducing operational overhead 60% for teams managing 10+ clusters.
- Created 10+ Claude skills to automate multiple redundant workloads and improved the efficiency by 20%.

Jumpcloud – Bengaluru — April 2024-March 2025

Staff Product Designer

- Led UX design for JumpCloud Password Manager, boosting task completion rates by 20% and reducing user-reported security issues by 15%.
- Developed 1.5 Stratus Design System, introducing reusable components to improve design consistency and accelerate workflows.
- Designed and implemented a Data Loss Prevention (DLP) system, increasing customer retention by 30%.

Key Projects: **JumpCloud Password Manager, Stratus Design System**

Atlassian – Bengaluru — June 2022-Dec 2023

Sr Product Designer

- Led UX design for multiple cloud-based Atlassian products, including Jira Service Management (JSM) and Atlassian Analytics.
- Spearheaded UX for XFlow initiatives, streamlining the sale of JSM licenses via JSW, resulting in a **$1M+ revenue boost**.
- Partnered with cross-functional teams to define user scenarios, champion user-centered design, and optimize product experiences.
- Onboarded 20+ customers to JSM within 5 months, improving IT Service Request Management and Incident Management workflows and reducing support tickets by 25%.
- Mentored junior designers on UI frameworks, design approaches, and best practices to ensure scalable UX strategies.

Key Projects: **Jira Service Management, Atlassian Analytics, Jira Software, XFlow Initiatives**

Citrix – Bengaluru — May 2016- May 2022

Worked as Product Designer, Product Designer 2 and **Lead Product Designer, Citrix**

- Directed UX efforts for 15+ B2B Citrix SaaS Cloud Products, simplifying complex enterprise applications through intuitive designs and increasing user satisfaction scores by 20%.
- Managed a team of 9 designers (4 Senior Product Designers, 3 Product Designers, 1 Content Designer, and 1 UX Researcher), fostering a collaborative design environment.
- Enhanced monitoring and troubleshooting solutions, driving adoption among 125+ customers and generating **$25M+ in revenue**.
- Redesigned Citrix Director, Analytics Service, and XenMobile, ensuring seamless user interactions across cloud platforms.
- Led recruitment efforts, expanding and strengthening the design team.

Key Projects: **Citrix Director, Citrix Analytics Service, Citrix XenMobile, Citrix SDWAN Orchestrator, API Developer**

Tabtor Math – Bengaluru — May 2014 - May 2016

Worked as UI/UX Designer, Tabtor Math

- Designed and developed interactive learning experiences across Tabtor Math's digital platforms, improving student engagement by 15%.
- Contributed to Tabtor's recognition at the Global EdTech Startup Awards (GESA) for outstanding user experience and pedagogical innovation.

Happiest Minds Technologies – Bengaluru — Mar 2013 – April 2014

UX/UI Developer

- Designed and implemented multi-channel digital experiences for healthcare and e-commerce clients, increasing user traffic by 10%.
- Developed story maps, use cases, wireframes, and prototypes to enhance user interactions.

TutorVista (later acquired by Pearson) – Bengaluru — Dec 2012 – Feb 2013

Freelance Developer

- Designed, implemented, tested, and deployed solutions for the Pearson Tutor Services Education Portal.

Sourcebits – Bengaluru — Mar 2013 – April 2014

Game Designer

- Developed 2D iOS games (Pac-Man, Robokil) and built RPG maps using Tiled.

ADPList – Bengaluru — Dec 2023- Present

Design Mentor

- Mentored 10+ aspiring and experienced designers, guiding them in enhancing their design skills and implementing effective UX/UI strategies.
- Provided structured feedback, industry insights, and career guidance to designers, empowering them to excel in their professional journeys.
- Guided designers in refining workflows, problem-solving approaches, and user experience methodologies to address real-world design challenges.

Education

Amrita School of Engineering – Coimbatore — 2008 - 2012

Bachelor's Degree in Computer Science, GPA: 7.8

Bharatiya Vidya Bhavan – Kozhikode — 2007 - 2008

XII in Computer Science, 84.2%
